Duchy Square Centre for Creativity, Princetown

Open Tuesday-Sunday, 10am-4pm, (7 days a week 10am-5pm
from March)

Art, Ecology and the Economy is a developmental collaboration between two leading organisations involved in the creative arts, operating on either side of Dartmoor.

The project takes the form of an exhibition in two parts, displayed simultaneously and four forums. Its aim is to demonstrate how environmentally friendly approaches to manufacture and collaboration can help make the creative industries more profitable. In turn, they will show how profitable creative industries impact on other important regional industries, particularly tourism, by providing products and services that enhance local distinctiveness.

Examples of work and case studies focus on the Greater Dartmoor area, but also on other predominantly rural areas in the UK and abroad (including Europe and Africa). Some artists (this includes designers and makers of all kinds) were invited to exhibit and others were chosen from an 'open submission'. We have sought to include work which addresses ecological concerns and which has the potential to be developed into viable and successful 'green' businesses.

Art, Ecology and the Economy

Forum (CCANW):
Wood Culture
Thursday 28 January

Forum (Duchy Square):
Wool Culture
Thursday 11 February

Forum (CCANW):
Water Culture
Thursday 25 February

Forum (Duchy Square):
